COUGH, &c.

A LI. PAIN, VOMITING AND DISTRESS ceases in a lew minutes after taking a dose of that wonderful Sedative Anddyse and Antispas, Moder temedy discovered by Dr. J. Collis Browne, M.K.C.S.L. (ex-Army Med. Staff) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury-square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it in the state of the state o

merous Jestimonials by Physicians and Surgeons are given:

From W. Vesalius Pettigrew, M. D., Hon, F.R.C.S. England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine:

Inave used it in Consumption, Asthma, Diarrhoca and other diseases, and am most perfectly satisfied with the results.

Dr. Gibbon, Army Medical Staff, Calculta: "Two does completely cured me of Diarrhoca."

Dr. Gibbon, Army Medical Staff, Calculta: "Two does completely cured me of Diarrhoca."

As an attringent in severe Diarrhoca and an antispasmodie in Colle and Cramps in the Abdomen, the relief is instantaneous."

Extracts from the General Board of Health, London, as to its efficacy in Cholera.

London, as to its efficacy in Cholera.

1st Stage of Premonitory—In this stage the remedy sets as a charm, one dose generally sufficient.

2nd Stage, or that of Vomiting and Purging—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three red stage, or Collapse—In all cases restoring the pulse. So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases.

From A. Montgomery, Esq., late inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

CAUTION—In consequence of the extraordinary

cince had alided."

In a distribution of the extraordinary effects of this remedy, several unprincipled parties have been induced to vend initiations. Never be tempted to buy Chlorodyne, except in scaled bottles, having the Government stamp, with the words "Dr. J. Collis Browne's Chlorodyne" engraved thereon. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. DAVENDORT, ST. Great Russell street, Bloomsbury, London. Sold in bottles, 28 9d and 48 6d. ju24 1 yw

jell td CAUTION TO THE PUBLIC.

Fraudulent Imitation of Hostetter's STOMACH BITTERS.

We warn the Public against a gang of scoundrels who are engaged in counterfeiting HOSTETTER'S CELEBRATED STOMACH BIT HOSTETTER'S CELEBRATED STOMACH BITTERS. These villains, who subsist by pirating, have exhibited a cunning equal to their rescality by selecting this most popular STOMACH BITTERS. Dealers from whom better things might have been expected have in some instances equalityed at the imposition for the purpose of sharing in the plunder. On the principle that the receiver is as culpable as the thief, and that the passer of spurious money is as criminal as the forger, the makers and venders of COUNTERFEET HOSTETTER'S BITTERS stand on the same MORAL level. The great reputation acquired by the BITTERS as a cure for Dyspepsla, Liver Complaint, and all debilitating diseases of the Stomach and Bowels, has tempted a host of sharks, who hope to profit by their celebrity.

A Fragment—Political Economy.

Political economy is a topic which can only be treated in a superficial way, when brought within the limits of a single article. Lord Macaulay does not differ more on historical questions with Sir James McIntosh than do ters. Anderson characterised our commercial treaties with Portugal as " commercially equitviews? Mr. Mill is the latest writer on poli- world." tical economy whose essays are worthy of note, combining as they do clear and precise language tor, telling him the latitude and longitude of land. all sorts of places, but not how to find whereabout he himself is sailing." If Mr. Mill and his school fail in convincing the world, it will not be for lack of divesting the science of those high considerations, morality, humanity, and can claim us as blind followers of his creed. There are topics on which we demand, as a lawful right, in common with our neighbours, liberty of thought,-the right of private judgwords in a state of complete or imperiect development? Is it a natural or physical study, science or an art, or both in combination; a compass to point out the relative position of the legislator or a chart as well, to discover the political rocks and quicksands which the statesman must avoid in keeping that good old ship the commonwealth to its sale and

were made of adamant, the economists would grind it to powder?" Quesnay, Adam Smith, and Say, are the fathers of political economy. But one man and very few men can read it. Francis Horner, the author of the famous Bullion Report of 1810, and a Political economist of high repute made the attempt in company with Lord Seymour, and inform us that they "were under the necessity of suspending progress in the perusal of the this place, signed "David Copperfield," Wealth of Nations, on account of the insurmountable difficulties, obscurities, and emmore savagely criticised in detail than this their way through the world and get rich classical work, the text-book of political-where an honest man would starve." economists, and the source not only of the cal economy must be popularized.

THE BRITISH COLONIST vate or public, ought to be considered under NEW ADVERTISEMENTS. two different aspects, the individual, social and material power by means of which riches are produced, and the interchangeable value of the products of industry. There is consequently a cosmopolitan economy and a political economy, a theory of interchangeable value and a theory of productive power.' The productive power of Great Brit-

ain, rests not solely on the uprightness or

morality, or intelligence of Englishmen, or

merely on the possession of those natural advantages which she enjoys from her insular pesition, but on account as well of our institutions and laws, and on the power which she possesses to carry out those laws and to render them something more than a dead letter, couched in legal language. As regards the theory of interchangeable value, we must observe that manufacturing industry is the great promoter of art, science, and what is of still greater importance, political progress. "It promotes," says List, "the general welfare, increases population, public revenue, and the power of the country; it enables the latter to extend its influence to all parts of the world, and to found colonies; it sustains fisheries and navies, mercantile and national. By it only, can agriculture rise to any high degree of efficiency and perfection. Owing to the temperature of writers on political economy differ from one Britain, and the greater number of her Coloanother. Every body is anxious to know something about the forthcoming election of Mayor and religion. Whether the mere acquisition of six Councillors. We have not much space wealth is the sole end of man's existence on to devote to the subject; but we spare this earth and the end of political economy, is enough for a point or two. There are to be a matter of opinion. No human philosopher three wards in the City of Victoria that is to be. Each ward is to send two Councillors; and the voters for the town at the first election is to elect the Mayor and Councillors. The election is to take place under the surveillance ment. The Meeting Last Night.

The meeting called by Attorney-General Cary last night, for the purpose of organising a party of ants to proceed to Cowichan Valley under pre-emption system, was attended by some 300 Mr. J. J. Cochrane called the meeting order shortly after 8 o'clock and summoned Mr. Ring to the chair, who came forward amid gathering, introduced Attorney-General Cary to treaty proved in vain; fervent prayers and

gathering, introduced Attorney-General Cary to the audience.

Mr. Cary commenced by saying that there was a large number of persons here who were desirous of settling upon the Crown Lands, and becoming citizens of Vancouver Island, and as there was only one place upon which they could settle, and as there were many obstacles in their way at present, several had suggested to him that a plan be introduced by which the Cowichan District might be settled up, and that Government had decided, if 70, 80, or 100 men could be obtained who were willing to settle there, that they should be put in possession of the land. A great deal of land was bought formerly by speculators at \$5 per acre, on which they had only paid \$1, but promised to pay the balance when the Indian question as to the title of the land was settled. These purchasers had bought originally \$900 acres, and they had since consented to give up all but about 2000 acres—leaving some 6000 acres for the new-comers whom it was proposed to take thither. Each raan would be allowed to pre-empt 150 acres; if he has a wife, 50 additional acres, and 10 for every child. A gunboat would accompany the party, and also a competent party to deal with the Indians. All that the government wanted was an assurance that a safficient number of men would be the least trouble in taking possession of the lands. In Somenos and a ressel would be provided to take thein, and he did not fancy that there would be the least trouble in taking possession of the lands. In Somenos and Comisken districts no trouble with the Indians was to be feared. In Quamichan and Conichan, however, there were numerous Indian potatoe patches, and a competent surveyor would accompany the party and set apart the land for these patches. What was to be avoided was ill feeling between the settlers and Indians. The agricultural richness of the valley was well known. There was also abundance of timber, and cedar shingles, which always commanded a good price in the market, might be made there cheaply, and brought to town for \$1 a thousand by teamsters. Mr. Cary concluded by saying that a list would be opened for the reception of the names of all those willing to go up. Let it be shown that a sufficient number were willing to go up and Government penda for the technical penda for the same end willing to go up. A voice—You're going to give them each 150 acres and something else.

Mr. Cary—What's that?

The voice—A devlish sight of trouble for nothing. [Laughter.]

Archdeacon Wright here rose in the audience and suggested that the project be listened to quietly and dispassionately. [Applause]

Mr. Cary continued to answer questions for some time, saying that the land was only to be idisposed of by pre-emption, and none was for sale at the upset pr.ce; the settlers would be amply protected in their rights to the land by the employment towards the Indians of a little moral force, backed up by a little physical force; he could give no estimate of what it cost to live there; not a shilling of the purchase money need be paid before the land hal been occupied a year; and Government would never turn a man out who was cultivating the land.

Mr. Shanks thought the meeting was a trick.

The Chairman replied that no personalities would be allowed.

After some further remarks, Mr. Cary retired,

Mr. Cary again stated that Government would see that an amicable arrangement with the Indians was made before the party started.

Archdeacon Wright then came forward amid loud applause. He considered that the meeting had been called in good faith by its originators, and recommended those present to give it due consideration. The Indian terrors he regarded as a bugbear. If 50 men settled there, a clergyman and schoolmaster would soon follow them. He proposed that the meeting accept the statement laid before it, and adopt it so far as circumstances might justify,

The rosolution was acconded by Mr Earles and cerried unanimously.
Mr. Cary informed those present that a list would be opened at his public office to day; and he wished those putting down their names to state their capabilities, as he would not recommend persons who were penniless to attempt to settle. He then proposed a vote of thanks to the chairman, and to the proprietor of the building for the use of the room.—Carried by neclamation.

Lieut. Com. Hope Verney, R. N., then proposed a vote of thanks to all the speakers of the evening, both those who had spoken in favor of and against the movement, which was carried amid loud applause, after which the meeting broke up.

Expostulation and en copious showers of tears, argument and denunciation, alike failed. She was determined not to have him, and she didn't. And the bridgroom that wasn't, instead of patronizing a drug-store for two bits worth of strychnine or Guy Huston for the loan of a pistol with which to end his existence, so soon as he discovered that he could not prevail on the obdurate-hearted fair one, to put a good face on the matter by hiring Parker's omnibus on Sunday last and putting the wedding-cake and wedding-wine aboard, invited a dozen or more of his friends to join him in a pic nic to Beacon Hill, where a july and comfortable time was had. The "brasted hopes" of the young man were washed down in flowing bumpers of Champagne, and the party returned to town in the evening apparently full as happy, and at any rate quite as tight, as if the wedding had really taken place. That young man is a bit of a philosopher. He will never be discouraged at trifles, and would make a capital Cariboo prospector.

Reward for a Gold Field.

The Governor yesterday sent to the House of Assembly the following communication and accompanying proclamation:

VICTORIA, V. I., July 26, 1862.

To the Speaker and Gentlemen of the House of Assembly: Gentlemen-I enclose for the information of

the House of Assembly, a proclamation which I propose to publish as an encouragement to induce persons to search for the precious minerals in Vancouver Island; and I shall feel glad if the will favor me with its opinion thereon.

JAMES DOUGLAS, Governor.

PROCLAMATION. The Governor, with the advice of the Council,

directs it to be notified:

That, to any person or persons who shall first discover a profitable Gold Field within the Colony of Vancouver Island, and make known and describe to the Colonial Government the site and limits of the tract of land comprised in his or their discovery, there shall be paid the sum of One Thousand Pounds sterling (£1000), provided the panies received for Lieuness issued for working Thousand Pounds sterling (21000), provided the monies received for Licences issued for working the said tract of land be equal to that amount; and provided always that there shall have been proved to the satisfaction of the local Government, that there has been bona fideraised and produced from the said tract or field, within two months of the issue of the said Licences, an amount of Gold equal in value to not less than Ten Thousand Pounds, (Fil.000). Pounds, (£10,000).

The principle objection urged against Port Townsend as a port of customs is that the harbor is unsafe for shipping. Before I conclude this 1-tter allow me to tell you a good prospecting story: Messrs 5-m-1 Crn, and R-ch-rd, W-l-ghb- went out prospecting together in the spring of '61, and were successful in getting good pay on a creek which they named the Lowhec. After being satisfied with the place they started for Antler, and resolved on the way to "keep dark" their success until they had informed their friends of it, so that they might have the first chance. But Mr. W— partook too freely at Antler of the Gough-forbidden beverage, and let the cat out of the bag. When Mr. C. saw this, he started that night with their friends to the newly found creek, and left W—— enjoying himself at quaffs and loose talk in the temple of Bacchus. In the morning, W was still laboring pander the inspiring effects of a continual application to tangle-leg tumblers, but felt inclined to to start for the new creek, and so he went accompanied by about 200 analyols chain-seekers. The company increased momentarily, poor fellows had been awaiting him in the woods—brigand-like-from the time he coupmenced wavening until he started. He soon had a company of about the richness of the creek, when Mr. W. took to a stump, and putting his two hands on his sides, began, Demoshenes-like, to deliver himself of a burdon of gratory:—"Gentlement," saidhe, "here it is only a half interest, and for that I have to pay \$\frac{1}{2}\$ burgdon of gratory:—"Gentlement," saidhe, "here it is only a half interest, and for that I have to pay \$\frac{1}{2}\$ burgdon of gratory:—"Gentlement," saidhe, "here it is only a half interest, and for that I have to pay \$\frac{1}{2}\$ burgdon of gratory:—"Gentlement," saidhe, "here it is only a half interest, and for that I have to pay \$\frac{1}{2}\$ burgdon of gratory:—"Gentlement," saidhe, "here it is only a half interest, and for that I have to pay \$\frac{1}{2

ANTLER, July 9th, 1862.

EDITOR BRITISH COLONIST.—"I Here we are," as the clown said when he entered the ring, but how the devil we are to get out, unless the merchants send up provision, is to me a mystery. I have delayed writing, that I may be enabled to inform you of the "doings" at this place, Williams Creek, Lowhee, and Lightning from which I have just returned. Imprimit, as we lower limbs of Creek, Lownee, and Lightinia; row which I have just returned. Imprinia; as we lower limbs of the law say, the roads are so bad from the Fork of Quesnelle here that animals cannot make morthan two trips per month, and even then packers are rare owing to the difficulties they experience in obtaining grass for the animals, as well as the almost certain chance of losing them either at Saw-mill blick forgetter products. obtaining grass for the animats, as wen as me amost certain chance of losing them either at Sawmill Flat, (a very appropriate name,) or on Snow-Shoe mountain, a place which when I passed over the put me in mind of the Pacific Ocean in a fog. Had the roads been commenced up here one month since, instead of below, where the trail I passed over was like a bowling green, (I mean the Bonaparte, and dont include Jack Ass Mountain, which is not, after all, half so bad as the hill leading from Downeville to Eureka,) a great deal would have been accomplished, inasmuch as wood could have been cleared away, logs removed, and bridges easily mude ready to be thrown across at the roceding of the waters. The trails here have in most instances been selected with a view of winding round hill, without, to my mind, any idea whatever of geograpical knowledge of location. Miles can be saved by attending to this, but the new-comer, who is afraid of going any other road but the beaten trail, finds himself, like the Canadian's

been so much tall jumping done for some time.

A new creek has also been struck about 30 or

and all who have a chance are starting for it. I
would bet over 2,000,000 of dollars will come out
of that little creek, Williams Creek, this and next

Wistar's Balsam of Wild Cherry, For Coughs, Colds, Asthma, Croup, Bron-chitis, Influenza, Bleeding of the Lungs, Difficult Breathing, Liver Affections, Pain or Weakness of the Breast or Side, First Stages of Consumption, &c., &c.

In short, this Balsam is peculiarly adapted to ever disease of the Lungs and Liver, which is produced by our ever-varying climate. Influenza and Consumption.

Influenza and Consumption.

It is indeed a melencholy truth that thousands fall victims to consumption every year from no other cause than neglected colds; yet we find hundreds, nay thousands, who treat such complaints with the greatest indifference and let them run on for weeks, and even months, without thinking of the danger. At first you have what you consider a slight cough or cold; you allow business, pleasure or carelessness to prevent you from giving it any attention; it then settles upon your breast, you become houses, have pains in the sides or clost, expectorate large quantities of matter, perhaps mixed with blood; a difficulty of breathing ensues, and then you find your own foolish neglect has brought on this complaint. If, then, you value your life or health, be warned in time and don't tribe with your cold, but immediately procure a bottle or two of that famous remedy. Dr. WISTATES BALSAM OF WILD CHERRY, which is well known to be the most speedy cure ever known, as thousands will testify whose lives have been saved by it.

For Influenza it is the very best medicine in the world.

Dr Guysoii's Improved Extract of

Yellow-Dock and Sarsaparilla THIS EXTRACT OF YELLOW-DOCK AND SARSAPARILLA is a positive, speedy and per manent cure for all diseases incident to females. Its mild alterative properties render it peculiarly applicable to the slender and delicate constitution of the female. It is unrivalled in its effect upon such diseases as Incipient Consumption, Harrenness, Leucorrhea or Whites, Irregular Menstruation, Incontinuous of University and

orrhea or Whites, Fregi Menstruation, Incont-nence of Urine, and General Prostra-tion of the System.

It immediately counteracts that distressing Nervousness and Lassitude so common to the iemale frame and imparts an energy and buoyancy as survising as they are grateful. We have evidence on file which induces us strongly to recymmend this medicine to married people who have not been blessed with offspring. The Shaker prepared "Yellow-Dock" and the Red "Honduras Sarsaparilla" are the invaluable remedial agents from which Dr. Guysott's Improved Extract of Yellow-Dock and Sarsaparilla is formed, and the Laboratory of Dr. Guysott has given us the virtues of the roots in their perfection. His preparation contains all the restorative properties of the roots combined and concentrated to their utmost strength and efficacy.

Experiments were made in the manufacture of this medicine until it was found that it could not be farther improved.

Accordingly we find it resorted to almost universally in cases of Hepatic, Scorbutic and Cutaneon complaints for general prostration of all the vita powers and all those tormenting diseases of the skir to trying to the patience and so injurious to the health.

The Great Domestic Revolution.

HARPER TWELVETTREES SOAP
POWDER for washing without Rubbing has
created an entire change and thoroughly revolution
in the management of the "Family Wash;" and
there are no reasons why the old, slovenly and disgusting process should be retained—a process so unnecessary, unscientific, and barbarous as to be considered agreat national disgrace! Harper Twelvetrees' Soap Powder saves time, trouble, money, firing, soap, 'hongue and temper,' and entirely abolishes the "female slavery" of the tub, and the present
domestic happiness destroying practice of washing. It contains nothing injurious, but is as
safe for the frabric and skin as the best soap! Only
boil the clothes 20 minutes and hang there up to dry.
No Rubmins is required, however dirty the clothes!

Irregularity is upt at those critical times to take place, and to lay the foundation of future disease. These Pills, safe in setion, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle aged. They prevent nervousness, hysteries, dropsy, and a host of similar serious disorders, by expelling all impurities from the system, therefore none should ver be without them. Crughs, Colds, and Asthmas.

Blood to the Head—Diseases of the Heart, More persons die suddenly from diseases of the heart than the unlearned suppose: in such complaints, the bowels should always be kep, well open, as also where there is a tendency of blood to the head. These celebrated Pills purify the blood ir an extraordinary manner, and should be taken in copil ous doses when such symptoms occur, taking care not to overload the stomach; by this means all danger is quickly averted.

Children's Complaints.

Children's Complaints, and the incomplaints of the fact, that children require medicine oftener than their parents, Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise, and give to their children small doses of these invaluable fills once or twice every week, in such quantity as may act gently upon the system twice in the twenty-lour hours. For infants, a Fill may be crushed and given as a powder in a little water. The gross humors that are constantly floating about in the blood of children, the forerumners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.

JAYNE'S EXPECTORANT.

Dr. W. W. WINTER, of Milledgeville, Ill., writes:

county, Pa., says:
Having been afflicted with ASTHMA and BRONCHITES, and the treatment of several skillful physicians proving of no avail, I commenced the use of your EXPECTORANT. After taking it for about three months 1 found myself entirely cured.

I have long known the virtues of your EXPECTORANT nd frequently tested them on myself and family, when filteted with COUGHS or COLDS. I believe it to be one of the best remedies ever discovered for these maladles,! Mr. Reading Dorr, of Twenty Mile Stand, Warren

writes:

My son, aged nineteen years, was confined to his bed for for three months, his disease being pronounced by the attending physician to be COSSOMPTION. Failing the attending physician to be COSSOMPTION. Failing to obtain any reflection the treatment he had been undergoing, I procured for him JAYNES EXPECTORANT, and through its use he has been entirely restored to health.

Mr. Joan Henry, of Burlington, Bradford county, Penn-sylvapla, says: For two vears, my son was afflicted with a fliggage re-sembling CONSUMPTION, and during this period was much to labor. Being finally induced to try your EXPECTOLANT, he was completely cured after taking ten bottles, and he is now able to work every day.
